

"WWSERF": WIRELESS WHEEL WEIGHING PLATFORMS

WWSERF wheel and axle weighing platforms

WWE: dimensions in mm.

Example of application with 4 wireless platforms and DFVKRPRF indicator for the reading and printing of the weight through a remote indicator.

Wireless platforms designed for creating weighing stations for large vehicles and axle weighing, avoiding the hassle of connecting cables between the platforms and the indicator. Ideal for weighing larger vehicles (vans, trucks, tankers, trucks etc.); very precise and sturdy, with attention to details.

FEATURES

- Weight: approximately 26 kg.
- Platform with built-in indicator and radio module.
- Weight transmission to the remote indicator or external device.
- Platform dimensions: 700 x 561 mm. Height: 58 mm.
- Loading surface: 700 x 450 mm.
- Fitted with wheels for transporting the platform.
- Very handy.
- Precise and reliable, with attention to all details.
- Sturdy structure, made in special aluminium, which guarantees lightness and makes these platforms suitable also for harsh working conditions.
- Stainless steel IP68 load cells.
- Power supply: internal rechargeable battery (about 40 h battery life) and charger included.
- Special vulcanised nonslip rubber applied under the platform, for good grip on all types of surfaces.
- The WWS platforms are patented; the number is 1.342.302.
- Available also in CE-M 3000e approved version.

OPTIONS AND ACCESSORIES

- High resolution model for internal factory use.
- Frame for flush floor installation.
- Levelling module for axle weighing WWSERM (fitted with junction and fixing kit).

NOTES ON THE CE-M APPROVED VERSIONS

- The weight of the **single platform** is legal for trade, if the platform is connected to DINI ARGEO indicator.
- The **total weight of the vehicle** is legal for trade depending on the application:
 - The wheel weighing systems, with a number of platforms equal to the number of vehicle's wheels, are approved if connected to DINI ARGEO indicators, because the weight of the vehicle is determined in only one weigh.
 - The axle weighing systems are for internal use only.

Available versions

Code	Surface (LxP) mm	Max Capacity kg	Division kg	CE-M Division kg	HR Division kg
WWSE6TRF	700x450	6000	2	--	0,2
WWSE10TRF	700x450	10000	5	--	0,5
WWSE15TRF	700x450	15000	5	--	0,5
WWSE6TMRF M	700x450	6000	--	2	--
WWSE10TMRF M	700x450	10000	--	5	--

NOTES:

- The CE-M division is referred to the weight of the single platform.
- The CE-M division in which the sum weight is indicated in the wheels weighing systems (4 platforms) is equal to the sum of the single platforms' divisions, rounded. Example: with 4 approved platforms with division 200g, the approved sum weight will be indicated with division 1kg.

Main connectable indicators

Code	Description
DFVKRPRF	Wireless weight repeater in Rack version, for create wireless vehicles weighing stations with WWSERF radio platforms or DFVL weight transmitters. Fitted with transport suitcase, 17-key keypad, LCD backlit display, time/date, thermal printer, 868MHz radio frequency module and dedicated program.

Options only available at time of order

Code	Description
EHR	High resolution model for internal factory use.

Accessories

Code	Description
WWSELM	Levelling module for axle weighing with WWSE and WWSD series' platforms, surface 1200x700 mm, h= 52 mm, weight of about 28 kg, fitted with junction and fixing kit.
WWSETF	Frame for flush floor installation for WWSE series platform.
